

LifePoint Health PGY1/PGY2 Informatics Pharmacy Residency Program

Hello prospective residents and pharmacy students,

During this unprecedented era of the COVID-19 pandemic, the search for residency programs has become even more challenging. Hence, we wanted to reach out to invite interested candidates to sign up for LifePoint Health's inaugural personal pre-interview process.

Much like the ASHP PPS process, these interviews will offer prospective candidates an opportunity to learn more about the LifePoint Residency Program and our partners. Additionally, students should come prepared to answer general questions about their interests and experiences as pharmacy students.

This program offers a combined PGY1 and PGY2 residency in pharmacy informatics. LifePoint Health owns and operates 88 hospitals in 29 states with 7 EHRs. Founded in 1999, LifePoint Health focuses on making non-urban communities healthier, and is the sole community hospital provider in the majority of its markets.

We hope you will take advantage of this exciting opportunity to learn more about this program. These optional interviews will be held on Friday, December 11th from 8 am – 4 pm (CST). Please use the link below to sign up for a 30-minute time slot. Interview times are not guaranteed and will be assigned on a first come, first serve basis.
